

The Multinational Power Electronics Association

Our Mission

To integrate the power industry resources to profitably serve the needs of the users, industry, providers, and PSMA members.

PSMA is a not-for-profit organization and a CO-SPONSOR OF APEC

Incorporated in 1985

PSMA - Power Sources Manufacturers Association

- Forum for discussing and progressing issues of common concern to the power sources industry, for the benefit of manufacturers, suppliers and users alike
- Enhance the stature and reputation of its members and their products
- Improve members knowledge of technology
- Educate the electronics industry, academia, as well as government and industry agencies through:
 - ***Published reports***
 - ***Educational seminars***
 - ***Technical conferences and workshops***
 - ***Conference exhibits***
- Integrate the resources of the power sources industry to more effectively and profitably serve the needs of the power sources users, providers and PSMA members.

A forum for discussing common concern to the power sources industry, for the benefit of manufacturers, suppliers and users alike.

PSMA Benefits

- **Networking:**
interact with your counterparts in other companies

- **Valuable Information:**
Members Only area of the Web site

- **Involvement:**
Planning and managing of PSMA & APEC

- **Participation:**
Participate in committees, workgroups

- **Discounts:**
Receive discounts on APEC registration fees

- **Company Profile:**
List your company's profile on the PSMA Web site with a hyperlink directly to your company Web site

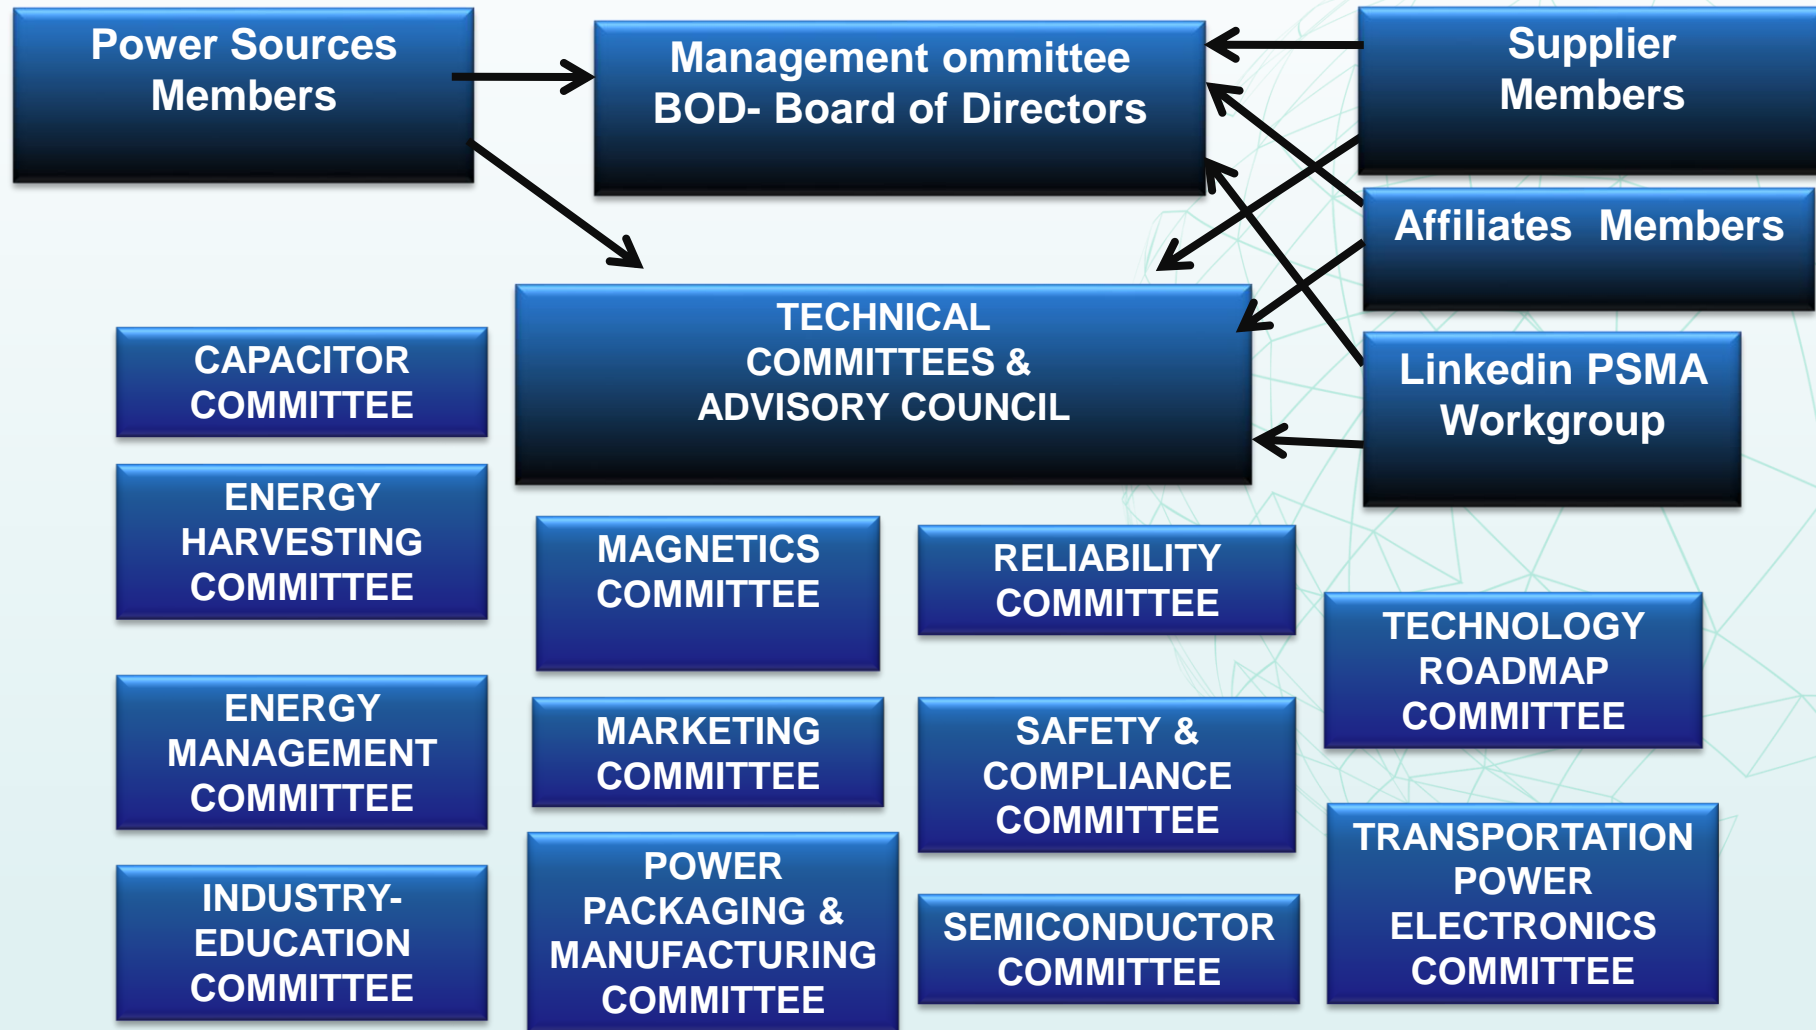

- **PSMA Publications:**
Free and discounted

- **PSMA Newsletter:**
Information on activities in the industry and upcoming events.

- **Company Spotlight Banner:**
Feature your company's products on the PSMA Home Page

PSMA Organization

PSMA's work is done by industry leaders on a volunteer basis.

Active Committees

CAPACITOR COMMITTEE

The PSMA Capacitors Committee is a group of volunteers knowledgeable about capacitors and power electronics. The aim of the group is to support the power electronics capacitor industry. The committee is involved in capacitor design papers, education, and design tools.

ENERGY HARVESTING COMMITTEE

Increase the market applications for energy harvesting technology with an emphasis on identifying the barriers inhibiting usage and addressing the applications for broader usage.

ENERGY MANAGEMENT COMMITTEE

Provide education, support, and recommendations in matters regarding the energy efficiency of power supplies and system power architectures (no-load, standby, and active-on) with, as a primary goal, the establishment of a consistent global standard for energy efficiency.

Active Committees

INDUSTRY- EDUCATION COMMITTEE

Promote and improve the communication between Industry and Education; to foster awareness and interest in power electronics conversion and control among our youth; and to identify the long term strategic issues of common interest to Industry and Education.

MAGNETICS COMMITTEE

Provides members with latest advancement information in magnetic, inductor, and transformer technologies. Serves our members, magnetics users, suppliers, and manufacturers with information, resources, subject matter experts in the area of magnetics and power conversion. Nurtures increased interest in magnetics specialization and research, and early career consideration in power electronics.

Active Committees

MARKETING COMMITTEE

Provides marketing support to PSMA activities including marketing communications such as press releases, cooperative efforts with other organizations to assure that the industry and the public have a better knowledge of PSMA's mission, goals, and activities.

POWER PACKAGING & MANUFACTURING COMMITTEE

This Committee provides information and resources on advances in power packaging and manufacturing technologies. Its focus is on high density power packaging design for lowest cost manufacturing, with the goal of achieving global competitiveness for PSMA member companies.

Active Committees

RELIABILITY COMMITTEE

The PSMA Reliability Committee aims to spearhead industry initiatives that identify and attempt to solve the pertinent industry challenges related to the reliability and performance of power supplies and associated products.

SAFETY & COMPLIANCE COMMITTEE

Supports the mission, vision - goals and objectives of PSMA by providing subject matter expertise, information resources supported with ongoing communications to our constituents on Safety and Compliance issues pertaining to power electronics and power conversion.

Active Committees

SEMICONDUCTOR COMMITTEE

Provides members with latest advancement information in IC and power semiconductor technologies.

TECHNOLOGY ROADMAP COMMITTEE

Develops and publishes the Power Technology Roadmap every two years.

TRANSPORTATION POWER ELECTRONICS COMMITTEE

Focuses on component and packaging trends in power electronics for transportation applications.

Major Projects

- ***7 Industry Sessions at APEC 2019***
- ***Power Magnetics @ High Frequency Workshops – at APEC***
- ***Capacitor Workshops –at APEC***
- ***Presentation at IPC APEX 2020***
- ***CPSS Joint Workshop - PEAC 2018, CPSSC 2019***
- ***Power Technology Roadmap – 2019 report, 2020 Webinars***
- ***Capacitor and Magnetics Educational Webinars – archived on website***
- ***3D-PEIM Second Symposia - June 2018, College Park, MD, Third in June 2020, Osaka Japan***
- ***EnerHarv Workshop – June 2018, Cork, Ireland, Second in June 2020, Raleigh, NC***
- ***PwrSoC 2018 – October 2018, Hsinchu, Taiwan***
- ***Energy Efficiency Data Base – continuously updated***
- ***Safety & Compliance Data Base – continuously updated***
- ***APEC Student Travel Support – jointly sponsored with IAS and PELS***

PSMA Publications

- ***PSMA Power Supply Software/Firmware Reliability Improvement Report (2019)***
- ***PSMA Power Technology Roadmap (2017, 2019)***
- ***Technology Report - 3d Power Packaging with Focus on Passive Embedded Components and Substrate Technologies (2018)***
- ***Technology Report - Current Developments in 3D Packaging with Focus on Embedded Substrate Technologies (2015)***
- ***Technology Report - 3D Power Packaging (2014)***
- ***Handbook of Standardized Terminology for the Power Sources industry (3rd Edition)***
- ***Units, Symbols and Style Guide for Power Electronics (1998)***

PSMA Publications - Reprints

- ***Soft Ferrites – Properties and Applications*** by E. C. Snelling – Reprint (2013)
- ***Transformers for Electronic Circuits*** by Nathan R. Grossner – 2nd Edition Reprint (2011)
- ***Modern DC-TO-DC Power Converter Circuits*** by Rudolf Severns and Ed Bloom - Reprint (2009)
- ***Application of Magnetism*** by J. K. Watson - Reprint (2008)
- ***Electronic Transformers And Circuits*** by Rueben Lee, Leo Wilson, and Charles Carter – Third Edition - Reprint (2007)

Working With Others

- **CEC - California Energy Commission**
- **CPSS - China Power Supply Society**
- **ECIA – Electronic Components Industry Association**
- **Emerge Alliance**
- **Energy Star**
- **EPA - Environmental Protection Agency**
- **EPRI - Electric Power Research Institute**
- **EPSMA - European Power Supply Manufacturers Association**
- **IEEE - Institute of Electrical and Electronics Engineers**
- **iNEMI - International Electronics Manufacturing Initiative**
- **IPC**
- **NYSERDA - New York State Energy Research and Development Authority**
- **ORNL – Oak Ridge National Laboratory**
- **PEIC – Power Electronics Industry Collaboration**
- **PICMG – PCI Industrial Computer Manufacturers Group**
- **TTA – The Transformer Association**
